## **OUR CORPORATE PROGRAM IS AN EXCITING WAY TO ENGAGE YOUR TEAM**

Get out of the office and head into our indoor rock climbing centre, where you can experience a new and exciting activity for your team. Rock climbing is a great way to encourage communication and team engagement, improve peer trust and develop problem solving skills.

City Summit's Corporate Program is designed to ensure that you receive the most from your event or team building experience. We will work with you to customise a program that will actively engage and challenge your team with clear measurable outcomes.

Our aim is to provide crossover for workplace skills and attributes with the activity of rock climbing. Through participation in the prescribed activities, team members will learn essential skills that can be applied in the workplace to enhance their overall team unity and performance.

Through the activity of rock climbing, attendees learn the importance of cooperation, effective communication, peer trust, goal setting and problem solving. Participation in the program will provide growth through personal and team development. Expected outcomes from the program are;

- an increase in individual confidence and initiative
- improved team function and positive group dynamic
- increased interdepartmental relationships
- improved flow of communication
- refined problem solving skills
- an understanding of leadership attributes

Rock climbing is suitable for all age groups and fitness levels. City Summit works to the highest teaching standards, best practices and above all provides a safe learning environment.
